

Contribute to Kaa

We are thrilled to invite you to become a part of the Kaa development community. Here is how you can contribute:

- If you have not yet, sign up for an account on [kaaproject public Jira@](#)
- Sign the [individual contributor licensing agreement \(ICLA\)](#). If you work for a company that wants you to contribute your work to kaaproject, you would also need to sign the [corporate contributor license agreement \(CCLA\)](#). Please download the agreement, complete and sign the form, then scan it and send back to legal@kaaproject.org.
- If there is no ticket for your change on the task tracker, please create one describing the rationale for the proposed change.
- We prefer that you contribute by submitting [GitHub™ pull requests](#) and linking to them from the tickets. Kaa open source project is located [here](#). If for some reason you cannot contribute through GitHub™, please [contact us](#) and we'll find a way to get you going.
- Provide as many details about your change as possible and resolve the ticket as fixed.
